2018 BISHOP'S CONVOCATION

WHERE FAITH AND REASON MEET

60% *of our young people will not take the Christian faith into their adults lives in significant part because of perceptions of conflict between science and faith. The 2018 convocation will explore two key questions.*

First, how can the church better engage science so that we can be more effective in our mission and ministry in a culture that has been and is increasingly influenced by science?

Second, how can we leverage—not just accommodate—popular interest in science?

GUEST SPEAKER

DR. APRIL MASKIEWICZ CORDERO

Exploring the Coexistence of Evolution and Christianity.
